

Future Trends Africa Manifesto Synopsis

The document called **Future Trends Africa Manifesto** was authored by Dr. Farzam Kamalabadi on March 20-27th of 2022 in Bahrain & Dubai.

This historic Charter, the Manifesto, has within only one year and a half already drastically changed the trajectory of Africa, at once and forever, and is uplifting the entire destinies of the Continent by the monumental positive movement of **The Collective Peaceful Rise of Africa**, termed in brief as **The Surprise Rise of Africa**.

The Manifesto itself is vast in its scope and intensely condensed in its content. For the ease of overview and understanding of the Manifesto, synopsis of key elements are provided herein.

There are several versions of the synopsis of the Future Trends Africa Manifesto as understood from diverse perspectives of various individuals. The readers are encouraged to read the Manifesto thoroughly in its entirety and form their own understanding of all the key elements. In fact, they are most welcome to enhance and enrich the Manifesto and add new key elements to create earlier and better and higher results, collectively.

2. The Future Trends Africa Manifesto by Dr. Farzam Kalamabadi and Founder of the Group sees the Collective Rise Of Africa as Key and the Gateway for the Future Of Africa

- Africa, the magical continent, is blessed with a brilliant destiny.
- Africa is endowed with the richest human, material, mental, cultural and resources.
- Africa is where the fate of humanity has a chance of renewal and rebirth.
- Africa is a perpetual mechanism for mega wealth generation and equitable wealth distribution.
- Africa is being renewed and reborn by Dr Farzham Kalamabadi by consciously creating and accumulating resources in over 100 countries. To gather and bring them together as a whole system and to utilize and contribute all these for the service of Africa and the uplifting of its nations.
- Africa must look up to the Future Trends Manifesto as an umbrella organization hybrid futuristic ideal institution.
- Africa must adopt the inclusive of wealth and welfare as a new paradigm for simultaneous wealth generation and wealth distribution
- Africa adopting and working with the Future Trends Manifesto will create wealth and distribute it within the same system.
- Africa will enjoy a combination of organization of profit and non profit humanitarian and financial Governmental relations and non Governmental institutions.
- Africa will then see and enjoy a bridge covering the gap between the idealist and pragmatist which will set the Trends of the Future and will be emulated by numerous others during countless generations.
- Africa which has been a hunting ground for foreign governments will be detrimental to the land and lives of the people of Africa.

- Africa must by itself generate native economies and societies yet in a formula, ensuring a multi win outcome for all local, national and global stakeholders.
- Africa must be Africa and not only as passive followers and recipients but as a leader and contributor to the world society and global community with it Future abundance economy.
- Africa not as a third world or second world citizen but as a mega wealth creator and contributor of the world.
- Africa the existing human,mental, psychological, entrepreneur, financial managerial and mineral resources of Africa in Africa by Africa for Africa.
- Africa with fair and equitable rewards and distribution of wealth for all involved, including the foreign investors and with a multi national interest, so all will win in a prorated manner.

4. Key Insights of Future Trends Africa Manifesto

- The Collective Rise of Africa is about rising in dignity, affluence, wealth, and contribution to the world, becoming a giver instead of just a receiver.
- Africa is already more wealthy than many nations, with resources such as oil, gas, mining, gold, diamond, forestry, agriculture, and human capital.
- Africa's destiny is in the hands of Africans themselves, not outsiders.
- Wealth creation and distribution at the same time, ensuring that money generated from resources like agriculture, mining, and energy is distributed back to the communities where it originated.
- The rise of Africa is possible and will happen peacefully, with participation from various countries and without disturbing anyone's interests.
- The key to Africa's brilliant destiny lies in collective maturity, consensus, consultation, and learning about the benefit of others to maximize everyone's interests.
- The responsibility of every individual to contribute to the collective rise of heroes and heroines, stating that "eight billion people on the planet are my children, are my responsibility as they are your responsibility."
- "One trillion people are my children and my responsibility." - emphasizes the importance of taking responsibility for the well-being of future generations and the world as a whole.
